### Allergy Aware School

Within our school community there are several students who have a potentially life-threatening allergy (anaphylaxis) to foods, predominantly to peanuts and tree nuts (e.g. almond, cashew, hazelnut, pistachio).

We feel the best way to reduce the risk of accidental exposure to these students is to respectfully ask for the co-operation of the parents/guardians within this school community to avoid sending nut or products that have nuts listed in the ingredients.

We would like to provide an "allergy-safe" environment for children at risk of anaphylaxis.

Your cooperation and understanding of this matter is appreciated.
